

Donlin Gold is recruiting Core Cutters at our remote fly-in-fly out camp located in Western Alaska.

JOB POSTING: CORE CUTTERS

POSITION DESCRIPTION

The Core Cutters will be responsible for cutting diamond drill core using a rock saw and or manual core splitter, bagging and tagging drill core samples. The individual will be working with the Geologists to ensure sampling procedures are followed.

RESPONSIBILITIES:

- Primarily responsible for cutting diamond drill core.
- Responsible for bagging and tagging core samples.
- Completes pre-shift inspections and field level risk assessments.
- Maintains a clean work area and accountable for the proper care of Company tools and equipment.
- Comply with safety, environmental and Company policies and procedures.
- Other duties as assigned by supervision and may include providing support in other departments as necessary.

While performing the duties of this job, employees may be frequently required to stand, walk, or sit for extended periods of time, use hand and fingers to handle or feel, reach with hands and arms, climb or balance, stoop, kneel, crouch, or crawl, regularly required to talk and hear. The employee must regularly lift and/or move up to 50 pounds and occasionally lift and/or move up to 75 pounds with assistance. Specific vision requirements for this position include close vision, distance vision, and the ability to adjust focus.

EDUCATION & EXPERIENCE;

- High School Diploma or Equivalent preferred.
- Previous experience operating power and hand tools and splitting core samples preferred.
- Experience working at a remote camp environment preferred.

These positions will work a 2 week on 2 weeks off rotation. The successful candidate must successfully pass a post-offer physical and drug screen and criminal background clearance.
